The Graves of Memory.

BY SALLIE M. BRYAN.

There is a lonely waste of graves
Beside a stream of sighing waves,
Where mourning groups of cypress trees,
And weeping willows, kiss the breeze,
And some white roses faded there,
Though they were planted with a prayer.

Above one grave a marble form
Defies the midnight's sweeping storm;
A wreath is on that statute's brow,
And crowds before its glory bow.
And yet one clasping arm is wound
A broken heart and harp around;

And one is grasping through the air,
As if the *something yet* were there!
The heart and harp are as my own—
The wreath is like a vision gone.
This dream built tomb I thought of yore
Should rise when some lone life was o'er.

Some other graves are shaded o'er
With myrtle from the heart's own shore—
Green with the memories of the past.
Though round them blighting dews fall fast.
Beside those mounds a breeze's sigh
Forever says; "Gone by, gone by!"

One form that's there beneath the sod
Seemed brighter than a Grecian god!
The classic curve the red lip wore,
The brow whose beauty charms no more,
The heavy clouds of midnight hair.
The wild, dark eyes with love-light there:

All these—all, all are mouldering low
In the dim vale of long ago.
Yes, these, and one who wins more sighs
With sunny curls and deep blue eyes;
Ay, one more worshipped than all these
Rests in the grave of memories.

MISCELLANY.

A Wonderful Story.

An Englishman, who was traveling on the Mississippi river, told rather tough stories about London thieves. A Cincinnati chap, named Case, heard these narratives with a silent but expres ive humph! and then remarked that the Western thieves beat the London operators all hollow.

"How so?" inquired the Englishman, with surprise. "Pray, sir, have you lived much in the West?"

"Not a great deal. I undertook to set up business at the Des Moines Rapids, a while ago, but the rascally people stole nearly everything I had, and finally a Welsh miner ran off with my wife."

"Good God!" exclaimed the Englishman, "and you have never found her?"

"Never, to this day. But that was not the worst of it."

"Worst! Why, what could be worse than stealing a man's wife?"

"Stealing his children, I should say," said the implacable Case.

"Children?"

"Yes, a nigger woman, who had'nt any of her own, abducted my youngest daughter, and sloped and jined the Injins."

"Did you see her?"

"See her, yes; and she had'nt ten rods the start of me; but plunged into the lake and swam off like a duck, and there was'nt a canoe to follow her with."

The Englishman leaned back in his chair, and called for another mug of "'alf-and-'alf;" while Case smoked his cigar and eyed his credulous friend at the same time most remorselessly.

"I—I shan't go any farther West—I think," at length observed the excited John Bull.

"I should not advise any one to go," said Case, quietly. "My brother once lived there, but he had to leave, although his business was the best in the country."

"What business was he in, pray?"

"Lumbering—had a saw-mill."

"And they stole the lumber?"

"Yes, and saw-logs," too."

"Saw-logs?"

"Yes, whole dozens of the black walnut logs were carried away in a single night."

"Is it possible?"

"He tried every way to prevent it—had men hired to watch his logs, but it was all of no use. They would whip them all away as easy as if there had been no one there. They would steal them out of the river, out of the cove, and even out of the railways."

"Good gracious!"

"Just to give you an idea how they can steal out there," (sending a sly wink to the listening company,) "just to give you an idea—did you ever work in a saw-mill?"

"Never."

"Well, one day my brother brought an all-fired fine black walnut log—four feet three at the butt, and not a knot in it.—He was determined to keep that log, anyhow, and hired two Scotchmen to watch it all night. Well, they took a small demijohn of whiskey with them, snaked the log up the hill, above the mill, built a fire, and then sat down on the log to play keerds, just to keep awake, you see.—'Twas a monstrous big log—bark two inches thick. Well, as I was saying, they played keerds and drank whiskey all night, and it began to grow light, when they went to sleep a-straddle of the log.—About a minute after daylight, George went over to the mill to see how they were getting on, and the log was gone."

"What were the Scotchmen doing?"

"*Sitting on the bark!* The thieves had drove an iron wedge in the butt end, which pointed down the hill, and hitched a yoke of oxen on, and pulled it right out, leaving the shell, and the Scotchmen a-straddle of it, fast asleep!"

COCOS ISLAND.—A party of treasure seekers sailed yesterday morning for Cocos Island, in hopes of finding the stores of wealth said to be buried there. We are informed that the exact location of the hidden treasures has been designated by means of spiritualism.—*Town Talk*, 12*th inst.*

The Faithful Maiden.

Nearly half a century ago, a beautiful, but poor young girl named Esther Levi, engaged herself as a servant in the house of Mr. Goldsmith, an Israelite merchant, residing in Cheapside, London; and, as she was mild, complaisant, and desirous of pleasing, she obtained the good feeling of all the family.

Mr. Goldsmith had always forbade his children being harsh to servants. "That which we have a right to expect from our servants," he observed, "is that they fulfil their duties with regularity. Humanity then exacts that, far from aggravating their position, we should, by treating them kindly, lessen their sense of servitude." This principle was faithfully observed, and, at the end of some years, Esther was considered as one of the family.

Misfortune at last accumulated on the house of Goldsmith. Two of his children died; the war with France intefered with the commerce of England, and ruined Mr. Goldsmith, who died with grief, after a lingering illness, which exhausted his last resources. His poor wife, left without rents, fortune, or defender, was maddened by distress, and her health became seriously affected by continued watchings and grief. One morning the afflicted widow called her servant, and with tears in her eyes, said:

"My good Esther, we must separate. Your devotion merits a rewards; but alas! I am ruined, and it is with difficulty I can you the wages I owe you. Take this money, the last I have left; accept as a token of friendship this ring, the only one of my jewels that I have not parted with."

"What are you proposing to me?" rejoined Esther, sobbing. "Would you send me away? Can I quit you, when you so much need my services? Have I asked for my wages? When you were rich you treated me as your child, and now you are aged, poor, and sick, I will regard you as my mother. You cannot work—but never mind. I am young and strong, and can strive for us both."

For ten years Esther fulfilled her generous terms. She supported Mrs. Goldsmith by the work of her hands, and with so much cheerfulness, that she always appeared the obliged party, and exercised so much delicacy that no person suspected her heroic devotedness. At length, in 1815, peace was proclaimed between France and England, and Mrs. Goldsmith collected some heavy debts due to her late husband. She passed the latter years of her life in calm and easy circumstances, which she doubly enjoyed in sharing them with her faithful domestic, in whose favor her will ran thus:

"I give and bequeath all I possess to my well beloved daughter, Esther Levi; and I desire she may hereafter bear the name of Goldsmith, to preserve the remembrance of her exalted conduct, in what concerns a family who will never cease to pray to the Eternal that she be rewarded as she merits."

A MODEL DUN.—The Georgetown *Gazette* gets off the following suggestion to his subscribers:

All persons indebted to this office are requested to walk up, roll up, send up or any way so they get up, and settle immediately, if not sooner. We are still prepared to furnish our paper to all who want it. We would prefer bank notes, gold dollars and silver quarters in exchange, but in the desperate language of a poverty-stricken and head over heels-in-debt co temporary, will take grind-stones, wooden nutmegs, patent wheel-barrows, shanghai chickens, *hoop* dresses, boot jacks, broom corn, "lasses" candy, "some pumpkins," baby jumpers, (for a friend,) fishing tackle, hoop-poles, ginseng, patent medicines, dye stuffs, cork-screws, old bacon, "young niggers," sucking pigs, rags, boxes and barrels, cold clothes, sausage meat, (extract of pork preferred, post stamps, lager beer, (used in printing,) grubbing hoes, pick axes, Colt's pistols, ten-penny nails, needles, ginger cakes, circus tickets, or any other articles usually found in a country store.

WHAT IS DIRT.—Old Dr. Cooper, of South Carolina, used to say to his students:

Don't be afraid of a little dirt, gentlemen. What is dirt? Why, nothing at all offensive, when chemically viewed. Rub a little alkali upon that 'dirty grease spot' upon your coat, and it undergoes a chemical change and becomes soap. Now rub it with a little water and it disappears; it is neither grease, soap, water nor dirt. 'That is not a very oderous pile of dirt' you observe there. Well, scatter a little gypsum over it, and 'tis no longer dirty. Every thing you call dirt is worth your notice as students of chemistry. Analyze it! It will separate in very clean elements.

Dirt makes corn; corn make bread and meat, and that makes a very sweet young lady that I saw one of you kissing last night. So, after all, you were kissing dirt particularly if she whitened her skin with chalk or fullers' earth. There is no telling, gentlemen, what is dirt. Though I may say rubbing such stuff upon the beautiful skin of a young lady is a dirty practice. Pearl power, I think is made of bismuth—nothing but dirt.

THE CRISIS HAS COME.—On one occasion, during an engagement, Capt. Duncan commanding the flying artillery, Gen. Pillow, in his usual solemn manner, called out to this officer: "Captain Duncan—fire—the crisis has come!" Duncan, without saying a word, turned to his men, who were standing by, their guns already shotted and primed, and simply called out "Fire!" The men were slightly surprised at the order—there being no particular object within range, when an old gray-haired Irish sergeant stepped up with: "Plaze yer honor, what shall we fire at?" "Fire at the crisis," said Duncan; "didn't you hear the General say it had come?

TWO VALUABLE THINGS.—Two of the most precious things on this side of the grave are reputation and life. And yet, strange to tell, the most contemptible whisper may deprive us of the first, and the weakest weapon of the second. Be more anxious, therefore, to *deserve* a good name, than to *possess* it.

Influence of the Newspaper.

Thinking men often deplore the frivolous nature of the reading of our age, and the waste of time and intellect over the countless newspapers which find their way into the counting room and the parlor. But there is a bright, as well as dark side to the picture, and papers conducted with eminent ability are important educators of the nation. The poet Croly speaks in the following eulogistic strain of the daily and weekly press:

The newspaper, the most influential of all human works, is the creation of printing. It is to the honor of England that, in this country, it approaches nearest to excellence, in intellectual vigor, in variety to knowledge, in extent of information and in patriotic principle. It has, like all the works of man, occasional imperfections, and, perhaps, the most prominent are its too minute details of offences against public purity. But there is scarcely a newspaper in this age which would not have been regarded as a triumph of ability in the last. In fact, the newspaper of England is a great practical teacher of the people. Its constant and universal teaching alone accounts for the superior intelligence of the population. Schools, lecture rooms and universities, important as they all are, altogether fall behind it in public effect, or find that to retain their influence, they must follow in its steps.

Those steps may now and then turn from the right road, but their native tendency is forward and upward. This intellectual giant alway advances, and carries the country with him to a height which no other country, ancient or modern, ever attained, or, perhaps, ever hoped to attain. If, in an age of foreign convulsion, England has undergone no catastrophe—if, in the fall of monarchies, she has preserved her hereditary throne—if, in the mingled infidelity and superstition of the continent, which, like the mingled fetters and frenzy of a lunatic hospital, have, in our day, exhibited the lowest humiliation of our nature, she has preserved her freedom and her religion—I attribute all, under God, to the vigor and intelligence of public investigation, the incessant urgency of appeal to the public mind, the living organization of which the heart is the Press of England.

Idleness is the dead sea that swallows all virtues, and the self-made sepulchre of a living man.

FRIDAY MORNING, JUNE 26, 1857.

THE FOURTH OF JULY.

We publish in another column a programme of the contemplated Celebration of the "GLORIOUS FOURTH;" and are gratified to be able to announce the fact that a demonstration will be made by our citizens on this ever-memorable day, and should have regretted to have seen it passed over without a display of some kind. We Americans, as a Nation, have but few National holidays, and but a small proportion of those are generally observed. There are many who deprecate the idea of these public demonstrations, as mere "empty show," "vain pomp" and "useless pageantry;" and tell us that great National holidays and noisy parades belong to the paraphernalia of despotism, and are the peculiar institution of Kings. However true this may be, it should not be forgotten that by these same means despots and tyrants have been able to keep their crowns on their heads, and their heads upon their shoulders. Their subjects have been found willing to suffer long days of wrong, for the boon of a few short hours of pleasure. National pride—a love of country—have been kept alive by these same displays—and people have forgiven deep and grievous wrong for the sake of a day of mirth and festivity, when the lowest in the land might be as free and untrammeled as the titled nobleman. Does it follow that because the pomp and circumstance of National holidays has been made a part of the machinery of despotism, that they are unworthy a free and enlightened people? On the contrary we think that their example may be turned to good account, and a useful lesson drawn from it for the preservation and perpetuity of our free institutions.

Eighty-one years have passed away since, guided by the strong hands and the firm hearts of the immortal *Fifty-six*, who pledged "their lives, their fortunes and their sacred honor" in the cause of Liberty, Republican America took her place among the Nations of the earth. What changes have subsequently taken place. Forests have been leveled—fertile plains dotted with flourishing villages, and peopled with hardy and industrious freemen—cities have sprung up as it were by magic—our white-winged messengers of commerce are anchored in every port, and the stars and stripes float on every sea. The child has grown to be a man, and is now a giant in stature and able to cope with the mightiest of the earth. On our own soil we are invincible to the attack of any foreign foe. It is not from without we need fear any danger. The elements of destruction, if they exist at all, are within ourselves, and are the fruit of sectional feeling, and a lack of that high-toned *National* sentiment which should characterize us as a people. We have grown to be a money making people, and in the strife for wealth are forgetting that fraternal bond of union which has linked State with State in one glorious confederacy, and made us what we are, the terror and dread of crowned heads—"a Nation of Sovereigns."

The feeling of reverence with which in days gone by, we have been accustomed to speak of the men and deeds of SEVENTY-SIX, is passing away before the utilitarian march of the present generation. To rekindle this National sentiment should be an object dear to the heart of every lover of his country—and we look upon the appropriate celebration of this and other great National holidays, as one of the means Providence has placed at our disposal for the promotion of a sound and healthy conservatism, which has been in times past a shield of defence against foes from without, and is now the especial dread of traitors within.

THE MASONIC FRATERNITY at this place, we are informed, decided by vote on the 24th inst., to join in the procession and participate in the festivities of the day, on the Fourth of July. We hope also to see the Odd Fellows turn out upon this occasion—we are not advised however, as to their intentions.

NEW STAGE LINE.—T. M. Heston, Expressman between this place and Kern river, has recently bought the Stage owned by Condon & Co., which has been running between Mariposa and Bear Valley, and will hereafter run between Hornitas and Visalia. Mr. Heston will attend to the Express business as usual.

HON. P. T. HERBERT returnd to California on the Golden Gate, and his numerous friends in Mariposa will be pleased to learn that he is expected to arrive in this place in a day or two.

OUR thanks are due the enterprising proprietors of the *Noisey Carrier* establishment, in San Francisco, for files of Atlantic papers received by the last Steamer.

MARIPOSA vs. CALAVERAS.

The editor of the San Andreas *Independent*, in noticing our Big Trees, says they "are mere saplings and would not make respectable *hoop poles* or *fishing rods* compared with the forest giants near Murphy's." After tendering us a polite invitation to visit their tall timber, he discourses as follows:

"We will show you trees, sirs, so tall, that the lower limbs are beyond shooting distance of a Mississippi rifle, and the green cones so high, that while falling they become dry as powder, before striking the ground, so great the distance traveled, (we infer this by finding no green cones under the trees.) We have it from an old hunter, told in all seriousness, that an emigrant lost an ox at the base of the peeled tree; he pursued the fugitive nonsequitur two days, around the root of the tree without discovering that the steer was on the other side, walking the same way, hunting the "train." Winter came on and that ox died, of despair, in its fruitless search. Recently, while on a visit to the Grove, we saw his bones bleaching beneath the umbrageous shade of that peeled tree, a monument to the truth of this legend, of the lost ox, corroborated as it was by "mine host" of the Big Tree Grove Hotel."

Isn't that a "*whopper*"—of a tree?—We have often heard of this collection of *shrubs*, known as the mammoth grove of Calaveras, and intend, if we should ever go as far north as that, to pay a visit to that *patch of undergrowth*, and as a memento of our trip, we intend, if we have a moderate sized jack-knife along, to cut that *peeled tree* for a walking stick, and bring it over to Mariposa, as a specimen of the dwarfish bushes growing in Calaveras county, yclept "Big Trees." We regret that we are unable to give our friend of the *Independent* a correct estimate of the height of the tallest of our trees, owing to the fact that during our visit the intervening clouds prevented our seeing anything above the *lower limbs*.

DISTRICT COURT.

The June term of this Court commenced on Monday the 15th inst., Judge BURKE Presiding. The present may be styled very properly the "heated term," from the press of business on hand. The Docket exhibits a grand total of *sixty-nine* civil, and *four* criminal cases—an amount of litigation sufficient to frighten a peaceable, quiet citizen out of his senses, but to the disordered vision of gentlemen of legal attainments, is undoubtedly a gratifying spectacle. But two of the criminal cases have yet been disposed of, viz: Mrs. H. B. Whitney and J. D. Rose, who were indicted for murder. The former was discharged on the ground of justification, and the latter on the plea of insanity.

Of the civil cases, a good share of them are in relation to the various points in dispute between the Merced Mining Co. and J. C. Fremont, in which an immense mass of testimony is being taken which will be carried before the Supreme Court, where the grand question in relation to the validity of the grant will be finally adjusted. How the matter will terminate is a mystery wrapped with "the glorious uncertainty of the law."

To persons wishing to take a pleasant nap, we recommend that they try the superific influence of one of these interminably long-winded suits. Anxious mothers who have the misfortune to preside over the destinies of crying babies, are respectfully advised to bring their progeny to the Court House, thus saving lullaby songs and paregoric.

MURDER AND LYNCHING.—On Friday last a Frenchman was murdered at his camp on the Fresno by a couple of Indians, who were out on a begging and stealing excursion. Our informant states that they went to the camp of the Frenchman and demanded food, and on being denied, they said they would take it. The man went out of his house and stepped towards them, when one of them shot him with an arrow, and followed up the attack assisted by his companion, until they finally finished him.

It is rumored that one of the Indians had been arrested—taken to the Chowchilla—delivered to the friends of the murdered man and dealt with according to the summary code of Judge Lynch.

☞THE Mariposa *Democrat*, in reply to our article of last week in relation to the County Printing, publishes the following consoling extract from the Oroville *Daily Butte Record*. So rich a specimen deserves a place in "*our cabinet*." Here it is:

"THE MARIPOSA DEMOCRAT.—This ably conducted and beautifully printed weekly, comes to us this week hailing from Hornitos, having been removed to that place during the last week from its old stamping ground, Mariposa Town. The Know Nothings have got the county printing and everything else their own way at this latter place, which is the shire town of Mariposa county, and they and the editor's poverty 'froze him out.' Never mind, old fellow, Democracy is mighty and will prevail, and then comes your turn."

The patrons of the *Democrat* will be happy to learn, even from so distant a source as Oroville, that the *turn* of that paper is coming at last.

☞MR. CLAVEAU, the Artist, has just returned from the Yo Semite Valley, where he has been for several days completing his sketches of the Falls and heights in that locality, preparatory to the completion of the Panorama. He also showed us sketches of the mammoth trees recently discovered near the South Fork. One of these *saplings* measures ninety-seven and a half feet in circumference.—*San Andreas Independent*, take notice.

ERROR.—In noticing last week the Democratic Convention to be holden in Mariposa on the 1st inst., we unintentionally stated that it would come off on the 9th, a mistake which we cheerfully correct.

A RICH CROP.—The *Alta* says: "A colored man, employed as cook at the "Polka" Saloon, in Weaverville, took lately from the crop of a chicken, a piece of gold weighing one dollar and forty cents. He thinks he might have got as much more had he run quicksilver through the fowl to save the finer particles."

Correspondence of the Gazette.

We take the following extract from a letter of a correspondent in Merced County. Owing to its great length, and a press of other matter, we are compelled to "curtail it of its fair proportions:"

"MERCED RIVER, June 20, 1857.

Mr. Editor:—As you have frequently requested me to write to you in regard to the affairs of our county, I avail myself of the kindness thus tendered so to do. In the first place, I would as a farmer say that our grain crops are but indifferently good; and it is the opinion of all the farmers with whom I have conversed, that there will be a deficiency as compared with last year—crops being much injured by the drought. The corn and vegetable crops, are however, quite promising, and I think will give a handsome yield. Ripe melons have made their appearance, and I have no doubt but in a few days your city gentlemen will be furnished with an additional avenue by which you can dispose of, to the best advantage, any little loose capital with which you may be troubled. Orchards and vineyards are looking extremely well—many of them having already fruit upon them. Next year we hope to regale with choice Fruit. Many of our river lands are admirably adapted to the growth of orchards, and vineyards—and I believe many of the tropical fruits would find a congenial soil and climate in our valley. Give us but a market for our produce, and we will show you sir, that Merced is the Banner county of the South—that our capabilities of producing wheat, barley, corn and all kinds of fruit and vegetables, together with stock of every description, is limited only by your ability to buy—for to your county we must look in a great measure for a market.

And this, Mr. Editor, brings me to speak about "that ditch," upon which so many hopes have been based by the people of our respective counties. Are you never going to dig it? Will you permit hopes so propitiously born and cherished by the people, to languish and die for want of the life-giving element?"

Not if we can help it—and with our correspondent we hope to be able at some period not far distant, to announce the "joyful tidings" that this great work has fairly commenced, and that water is really coming. People are generally aware that in the introduction of this much needed element, rest our only hopes of prosperity as a mining community. How long they will wait the snail-like movements of capitalists, is a question which time will solve.

MINING ITEMS.

SHERLOCK'S BELOW THE FALLS.—A majority of the miners in this locality are making good wages; those who have "struck the lead" in tunneling, are doing very well. We are informed by one of the party that Messrs. Clark, Marshall & Co., have recently struck good pay in the old "Overton claim," immediately below the canon. They took out in a single pan of dirt, about $25—one piece weighing eighteen dollars. Our informant stated that the product of their day's work amounted to between three and four ounces.

UPPER SHERLOCK'S.—Sullivan and Wilcox, the discoverers of the Hill Diggings, on Mullen's Gulch, known as the "Muginsville lead," are at present running a new tunnel into their claim for the purpose of draining it—having been driven out by water.

Foran & Co. are hauling dirt to the creek and making good pay.

Hayes & Williams, who have been laboring for months under difficulties, such as big boulders, hard ledges, boiling springs, and lawsuits, have at last succeded in reaching the lead, and at last accounts were doing well. A scarcity of water here, as in other portions of the county during the summer months, is the only bar to the prosperity of the mining population.

MARIPOSA CREEK.—Messrs Clarke & Bagby are working a claim near where the old Quartz Mill stood, a short distance below town, and are making good wages, we learn from six to eight dollars per day to the hand.

SALE OF A QUARTZ VEIN.—We understand that Mr. Moore, the proprietor of the rich quartz vein on Saxton's, has disposed of it, together with the mill attached, for the sum of $15,000. Quartz veins in this section, and in fact throughout California, are growing daily more valuable, and we doubt not that as time rolls on and new and improved methods of saving gold come in vogue, this branch of mining will prove generally remunerative. Many of them are being worked with profit even now, on which a few years ago fortunes were expended in the bungling system of former times.

MR. DALLAS TO BE WITHDRAWN.—The Washington correspondent to the San Francisco *Bulletin*, says that Mr. Dallas will be withdrawn from London some time next fall or winter, when he will be succeeded by the Hon. Robert J. Walker, unless in the event that he should succeed in quieting Kansas, it is deemed more desirable that he should take the State Department. General Cass, I have some reason to believe, will not remain at that post longer, and there is no one else so prominently before Mr. Buchanan who is so likely to secure his favorable decision.

COMMITTED.—The two men, John and Jerry Willis, who recently made a murderous assault upon a man called Dutch Harry, and subsequently committed highway robbery upon two men, and were arrested in this county a few weeks since, were examined in Sonora on the 16th inst., and committed to answer before the Criminal Court.

☞We would call the attention of our readers to the advertisement of Hewlett & Collins, who have been long and favorably known among Stockton traders.—People buying goods in the above place would do well to give them a call.

Trial of J. D. Rose for the Murder of John Lucas.

This case which was set for trial on Friday last, owing to the difficulty in impanneling a Jury did not come up for trial until Saturday. The prisoner was charged with killing one John Lucas, on the 28th of December last, at Whitlock's Creek.

The following legal gentlemen volunteered in the defence: H. G. Worthington, Merritt & Deering, Allison & Harris, C. Stafford and Col. Parker H. French. R. H. Daly, Esq., Prosecuting Attorney.

It appeared from the evidence in behalf of the prosecution, that some time during the day of the homicide the deceased came to the store of Mr. Stegman, at Whitlock's, and there met the prisoner, and during an altercation which ensued relative to some money which he took belonging to Rose, the accused, the latter stabbed him with a bowie knife, from the effects of which he almost instantly died.

The evidence, so far as related to the killing, was clear and conclusive. The witnesses in behalf of the State, were H. Stegman, Richard Anderson, John Fritz, W. Tungate and Mr. Ireton, whose evidence, together with that of the defence, we have taken down in full, but owing to its great length, and from the fact that it differed in no essential particular, we only give the substance of.

It seems that during the evening, a party were engaged in playing "poker," among whom was the accused. The deceased had been looking at the game for some time, and finally offered to bet a quarter with the accused that the hand held by another of the players would beat his. Rose took the bet and the stakes were placed on the table. The deceased won, and picked up the money, at the same time reaching to a pile of silver belonging to the accused and taking several dollars. The latter remonstrated and demanded the money. The deceased denied having taken it, and after some words had passed, remarked that any one who said he had taken the money was a liar. Rose replied—"I say so," to which the deceased responded, giving him the lie.—The prisoner walked out of the room during the altercation, and on returning, again demanded the money, when on being again refused, he struck him as described, with the knife, killing him almost instantly. No one saw the knife until after the blow was struck, when one of the witnesses supposing he had only struck him with his fist, approached him for the purpose of interfering, when he exclaimed "I am hurt," and immediately fell and expired.

After the evidence had closed for the prosecution, H. G. Worthington for the defence made a statement to the Jury, admitting the killing, as alleged by the witnesses, but pleading insanity in mitigation of the deed. The following witnesses appeared and were sworn on the part of the defence: N Petty, Harvey Davis, C. Dallas, John N. Moore, R. Williams, A. C. Kelly, Clark Cleaver, Harvey Williams and George Hayes. The testimony went to prove that during the residence of the prisoner in California, he had exhibited strong evidences of mental derangement—that he had once attempted his own life in Stockton by shooting himself with a pistol. That at different periods he had behaved in a strange and unaccountable manner even up to the evening of the unfortunate occurrence.

N. Petty deposed that he knew him since the spring of '53. Prisoner was then engaged in teaming; witness kept a house on the road; prisoner used to stop at his house, and afterwards in '54 boarded with him and worked for him.

Question—When he was living with you did you see anything peculiar in his actions?

Answer—First noticed it in '53, after prisoner had shot himself in Stockton; witness invited prisoner to his house; family were afraid; were fearful that he would commit suicide. One evening in particular, Rose had gone up to bed; heard a noise up stairs; wife remarked that Rose had killed himself. She was constantly in dread of it; went up and found him laying on his face insensible. The next day prisoner did not remember anything about it. On another occasion prisoner came to him and wanted to borrow some money, and wished to be ferried across the river; said his brother had come to the country and was coming to see him and going to bring a pair of horses, one black and one white one, and if he did'nt bring a better match team than that, he did not want to see him; a few minutes afterward, came back and borrowed a pistol of him and then crossed the river; soon after heard several shots fired and expected Rose had made away with himself; went in the direction of the firing and found Rose in a dreadful state, partly naked and insensible; prisoner never could recollect the conversation he had with witness about his brother, or the circumstance of his borrowing the money; had generally a very good memory, and was remarkably punctual in paying his debts; was certain that the accused never had a brother in the country.

Mr. Hayes testified to the prisoner having exhibited strong symptoms of lunacy on the night of the Christmas Ball, a few evenings previous to the homicide. The other evidence was corroborative of the same facts.

Several of the witnesses for the State were recalled and examined relative to the appearance and actions of the prisoner before, after, and on the evening of the occurrence, and all went to establish the fact of his insanity.

Drs. Payne, Clark and Scribben having listened to the evidence, testified that in their opinion as Physicians, according to the evidence, the prisoner was insane at the time of the commission of the deed, as well as before and afterwards.

Letters were here produced by Counsel from the relatives of the prisoner, going to prove that insanity was a hereditary disease in his family.

This closed the evidence for the defence, when R. H. Daly, District Attorney, opened the argument in behalf of the State, followed by Col. Merritt and Parker H. French for the defendant, and closed by Daly for the prosecution.

The trial occupied the entire day and excited much interest—the Court House being thronged with spectators during the progress of the case. Late in the evening the Jury retired, after being charged by his Honor, Judge Burke, and on Monday afternoon brought in a verdict of "Not Guilty," and the prisoner was discharged.

APPROPRIATE FOURTH OF JULY CELEBRATION.—An up-country cotemporary says the Stockton *Argus* thus foreshadows the amusements in which the inhabitants in its vicinity propose to indulge on the approaching anniversary of our National Independence:

"Bill Farr, late of the Rocky Mountains, will give a huge grizzly a fair rough and tumble fight, except that the bear is to carry no knife, in the arena, on the race course at Tehama on the Fourth of July. It is agreed that the fight shall be on the square. All licks to be fair for Farr, but all licks to be foul for the *bar*. To pull hair, bite gouge, and belt below the lug is good. Mr. Farr has tried it before, and offers to bet 1,000 that he will kill the bear. We did not learn who was to put up for the bear, but understand that old bruin was confident of winning the fight, and was then looking for backers.

RECIPE.—The following is said to be an infallible remedy for eruptions caused by contact with the poison oak. Having recently seen several victims of this troublesome weed, we publish it for the especial benefit of the afflicted:

Take sulphurate of iron, ten grains; laudnum, half an ounce; water, one ounce—mix and apply to the diseased surface, constantly, by means of soft linen, saturated with the solution. If the eruption is persistent with sympathetic fever, take salts in aperient doses and one grain of sulphurate of iron internally.

SODA WATER.—Bliven & Clark, manufacturers of Soda Water, Syrups, &c., keep our office supplied with an unlimited amount of *Pop*, for which they will please accept our thanks. The quality of this beverage from their manufactory, is pronounced by good judges superior to any ever before offered in this market.

FOURTH OF JULY!

Grand Celebration of the 81st Anniversary of American Independence, in Mariposa, on the 4th day of July, 1857.

The undersigned Committee of Arrangements, appointed by the citizens of Mariposa to provide for the proper Celebration of our National Birth Day, respectfully present the following Programme as the

ORDER OF THE DAY.

At sunrise there will be fired a National Salute of 31 guns, interspersed with Music by the Mariposa Brass Band.

At 10½ o'clock A. M., the different Orders, Firemen, &c., will assemble at the open space in the lower end of Town, and form into Procession, in the order assigned to them, moving precisely at 11 o'clock, and march through Main and Bullion streets up to the Court House, where the following exercises will take place:—

1st.—PRAYER—By REV. J. C. SIMMONS.

2nd.—READING OF THE DECLARATION OF INDEPENDENCE—By R. B. LAMON.

3d.—MUSIC—By THE BAND.

4th.—ORATION—By H. G. WORTHINGTON, Esq.

5th.—MUSIC—By THE BAND.

The procession will then re-form, and march back to the place of starting.

The Committee have appointed L. A. HOLMES, Esq., as Grand Marshal, and DR. J. L. CLARK, COL. JOHN H. TATMAN and Mr. D. BRIEN, as Aids to the same, under whose direction the Procession will be while in motion.

All necessary arrangements will be made for the convenience of Ladies, at the Court House, for whom seats will be arranged, inside the BAR.

A general invitation is hereby extended to all our fellow citizens in the adjoining Towns and Camps, to participate in doing honor to the glorious day we celebrate.

MINERS AND SETTLERS MEETING.

At a meeting of the Citizens of Mariposa County, on Wednesday the 17th inst., Capt. A. TOWELL was called to the Chair, and Mr. LEROY VINING, acted as Secretary.

The meeting passed the following Resolutions by a unanimous vote:

Resolved, That all good citizens should weigh well the unscrupulous and false assertions, of certain Attorneys and Agents of J. C. Fremont, that the "Merced Mining Company is an insolvent and bankrupt corporation, unworthy to be trusted by teamsters, laborers, &c." for their daily or monthly dues, and frown down all such niggardly efforts to injure or defraud said company out of its just rights and eventually to deprive all Miners and Settlers of their hard earned gains, by first reporting and then forcing them into bankruptcy, instead of, like high-minded, honorable men, allowing the laws to take their due course.

Resolved, We most emphatically declare our determination to abide by and sustain the Constitution and laws of the United States and of California, when fairly and fully expressed and enforced, but at the same time to combat every attempt to forestall legal action by violent intrusions, or false representations, tending to thwart the true intent of our general Government, which is a Government of Laws—to subvert any one of which is to annul and destroy the whole.

Resolved, This meeting cannot refrain from expressing its indignation at the violent threats, bombast and ruffian like deportment of certain emissaries of Palmer, Cooke & Co., styling themselves "Fremont's Agents," and we pledge ourselves to meet and resist them, and in the language of his (Fremont's) legal Agent (R. A. Lockwood) "our children and our childrens' children, shall resist to the death, the children and the childrens' children of said legal Agent of J. C. Fremont & Co., Palmer, Cooke & Co., or any of their benefactors or hirelings.

Resolved, This meeting most positively condemn and disapprove of the conduct of the Surveyor General (J. C. Hays,) in causing to be made, in a secret and clandestine manner, the last survey of the Fremont location, and as friends and admirers of his, regret he should have lent himself to our oppressors by not permitting us to prepare for defence.

Resolved, In the opinion of this meeting, where bonds are required, in suits for mining claims, all interests held under the mining laws in this county, should be deemed available property in the giving of said bonds, and their value fixed by comparison with those in litigation; and no titles, under Fremont's disputed title, to mineral lands, should be recognized, unless they also are held in conformity to the mining laws of California. Furthermore, it does not think any of Fremont's Agents, or those holding titles or leases under them, should be received as responsible sureties, unless they have other property than that in dispute, or held *it* under the mining laws.

Resolved, This meeting feels the deepest sympathy for those who have been "humbugged" by the promises of the Agents of Fremont, Palmer, Cooke & Co. and others, and highly commend their conduct in holding on to the soil and other property for their wages, and assure them that we will sustain them in so doing as far as we can.

Resolved, The members of this meeting pledge themselves, to all persons living on and *opposed* to the present unjust and fraudulent Fremont location, "known as the "Las Mariposas Grant," and to resist, as one man, all aggressions for depredations upon the rights of each and every Miner and Settler on said grant, by any of the horde of dubious or illy constituted Agents of J. C. Fremont, Palmer, Cooke & Co., or foreign speculators, be they Lords or Lordlings.

Resolved, The Miners and Settlers on the Fremont Claim ought not cast their votes for County and Township officers for any but persons known to be in all their proclivities, openly against Fremont and Palmer, Cooke & Co., and in favor of the interests and rights of the citizens of Mariposa County.

A. TOWELL, Prest.

LEROY VINING, Secretary.

IMPROVED WATER WHEEL.—Mr. John Turnbull exhibited to us last night, a minature model of his newly invented water wheel or "Paddle Wheel," which many think destined to work a great revolution in steamboating, as well as in the usual application of water wheels, as a motive power. It has as yet been tested only on a limited scale, but the inventor will immediately take measures to try its merits by experiments upon its propelling qualities. He claims that it effectually obviates the objection to the common wheel of steamers, of lifting dead water, and believes that this wheel will give as much speed as much as those at present used, of twice the diameter of his. His invention is simple. The paddle consists of two parts, opening in the centre, and so adjusted that when it has so far passed the centre, that the resistence of the water has essentially decreased, the paddle opens lets the water escape and rises without lifting it. He says it works well and exerts its propelling power nearly as well when entirely immersed. His model certainly gives signs of future usefullness and progress; but such things can only be proved by experiments. We think it will undoubtedly work well as applied to saw mills and other manufacturing proposes. If the paddles can be constructed with sufficient strength to stand the power exerted and the resistance of the water, we are inclined to think it may prove a decided improvement upon the present kind of steamboat paddle wheels.—*S. F. Chronicle.*

A FRIGHTFUL RIDE.—On Monday night, says the Marysville *Express*, two gentlemen paid a visit to the ranch of Mr. A. Englander, about three miles from the city. One of the gentlemen put a little girl of Mr. Englander's (four years old) in the buggy for the purpose of giving it a ride, when the horse became fractious, broke loose from its driver, who had not yet got into the buggy, and dashed off at a rapid rate with the helpless child. Every exertion was made to overtake the animal, and if possible, save the little girl, but so swift was his flight that in a moment the terror-sticken parents were unable to obtain a sight of their child, and all hopes of her recovery alive were abandoned. But fortunately their fears were soon dispelled by finding the little adventurer safely landed, about five hundred yards from the starting point. She clung to the cushion when she was thrown from the buggy, and lit upon it when she fell, thus preventing any serious injury.

ST. JOHN'S DAY.

On Wednesday the 24th inst., the Masonic Fraternity of Mariposa turned out in respectable numbers, and after forming in procession, accompanied by the Mariposa Brass Band, marched to the Methodist Church where they listened to a fervent prayer and an eloquent and appropriate address from Rev. J. C. SIMMONS, the worthy Pastor. A large number of citizens were present, many of whom, we regret to say, were unable to procure seats on account of the small size of the building. After service the procession again formed, and were escorted to their Lodge room by the Band, and in the afternoon partook of a dinner at the "Mug," which, judging from a specimen Basket sent us, was not lacking in the solids and fluids necessary to a sumptuous repast. Later in the evening sundry Baskets of Champagne were disposed of, which closed the festivities. For the substantial token of their esteem and regard for the *gentlemen of the Press*, we hope they will receive the reward which all deserve who remember the printer.

☞Mr. CONDON will accept our thanks for the prompt delivery of California exchanges.

SUMMONS.

STATE OF CALIFORNIA,
COUNTY OF MARIPOSA.

In the District Court of the Thirteenth Judicial District of said State.

THE PEOPLE OF THE STATE OF CALIFORNIA, to J. H. BONDURANT, J. M. BONDURANT, WM. W. WARD:—*Greeting:*

You are hereby summoned to appear and answer, in said Court, unto the complaint of J. A. Grandvoinet, in an action of debt on a promissory note, (executed by you in favor of one Francis Williams and by him endorsed to said Grandvoinet,) wherein the Plaintiff claims the sum of three hundred dollars, with interest, at the rate of two per cent per month from Nov. 14th, 1854, till paid; filed in our said Court, within ten days after the service of this writ, if served in said County, out of the County but in the District, twenty days, and within forty days if served in any other County out of the District, or judgment by default will be taken against you for the said sum of money, interest and cost.

Witness, Hon. E. Burke, Judge of the Thirteenth Judicial District of said State, this 18th day of June, A. D. 1857.

WM. A. GUARD, Clerk.

MERRITT and DEERING, Plaintiff's Atty's.

SUMMONS.

STATE OF CALIFORNIA,
COUNTY OF STANISLAUS.

In the District Court of the Thirteenth Judicial District:

JOHN PACHE and NICHOLAS COUSIN, Plaintiffs, vs. JOHN SCHMIDT, Defendant.

The People of the State of California, send Greeting, to JOHN SCHMIDT:

YOU are hereby required to appear in an action brought against you by the above named plaintiffs, in the District Court of the Thirteenth Judicial District, in and for the County of Stanislaus, and to answer the Complaint filed therein, (a copy of which accompanies this Summons,) within ten days, (exclusive of the day of service,) after the service on you of this Summons—if served within this County; if served out of this County, but within this Judicial District, within twenty days; or if served out of said District, then within forty days—or judgment by default will be taken against you.

The said action is brought to obtain Judgment against you for the sum of Two Hundred and Three Dollars and seventy-seven cents, on a contract, besides interest and costs of suit. And if you fail to appear and answer the said Complaint as above required, the plaintiff will take Judgment for the amount demanded.

To be published in the *Mariposa Gazette*, for eight weeks, by order of the Court.

Given under my hand and Seal of the District Court, of the Thirteenth Judicial District, this Second day of June, in the year of our Lord one thousand, eight hundred and fifty-seven.

je19-8w. R. McGARVEY, Clerk.

CITATION.

STATE OF CALIFORNIA,
COUNTY OF STANISLAUS.

In Justice's Court—Branch Township.

THE PEOPLE OF THE STATE OF CALIFORNIA, TO JOHN SCHMIDT:

YOU are hereby Summoned to be and appear before me, a Justice of the Peace, at my office in La Grange, at 10 o'clock, A. M., on Monday, the 20th day of July, A. D. 1857, to answer the complaint of V. Fallies, J. Bertin and F. Guimet, in an action of debt on account, as shown by account on file annexed to complaint, wherein the Plaintiffs claim the sum of Seventy-two dollars and one cent. And for a failure to appear and answer, the said Plaintiffs will take Judgment against you for the sum of seventy-two dollars and one cent, and costs of suit.

Given under my hand, this 15th day of June, A. D., 1857.

A. ELKINS,
Justice of the Peace.

It having been made to appear that the above named Defendant, John Schmidt, has left the jurisdiction of this Court, or keeps himself concealed to avoid the service of civil process—it is ordered that a copy of the Summons, together with this order, be published in the Mariposa Gazette, once a week, for the term of four weeks.

Given under my hand, at La Grange this 15th day of June, 1857.

A. ELKINS,
je19-4w Justice of the Peace.

FRIDAY MORNING, JUNE 26, 1857.

[*REPORTED FOR THE GAZETTE.*]

First Meeting of the Lagerville Pioneer Antiquarian Society and Modern Order of Old Fogies.

Pursuant to a "call to the unconverted," (not Baxter's,) a large number of superannuated 49'ers, disappointed politicians, besides any quantity of unlucky individuals of the *genus homo*, many of whom had occupied honorable but non-paying positions in the "Mutual Admiration" and "Can't-get-away Clubs," assembled at Misery Hall, in Poverty Alley, opposite Pay-Nothing Square. Mr. Stick-in-the-mud being duly elected Chairman, briefly stated the objects of the meeting, which were afterwards embodied in the following Preamble and Resolutions, which, on motion of Col. Jefferson A. Dobie, an old school democrat, were unanimously adopted under the auspicious title of "*Platform* of the L. P. A. S. & M. O. of O. F."

PREAMBLE—*Whereas*, In view of the recent narrow escape of this terrestrial sphere from destructive contact with a luminous celestial body known as the "Comet," which through the interposition of Providence, *just missed us*, and in consideration of the uncertainty of the day and the hour when it may make another and a better shot, we are by these and divers similar warnings, led to reflect upon our "latter end." And whereas, the alarmingly progressive spirit of *Young America*, in its reckless go aheadativeness, is likely to forget the past, *go it blind* in the present, and ride rough shod into futurity, leaving hidden in the general *dust* it is kicking up, all traces of us and our works, be it therefore

Resolved—1st. That we form an association for the perpetuation of the records of the present and past generation, and the handing down to posterity of some tangible proof of the existence of a race of men known to the scoffing lips of Young America as *Old Fogies*.

2d—*Resolved*, That we constitute a portion of this much abused class, and instead of feeling ourselves disgraced by the epithet, we most emphatically glory in it —*we do*.

3d—This association shall be known as the L. P. A. S. & M. O. of O. F.

4th—Its officers shall consist of a President, Secretary, Treasurer and Committee of the Whole.

5th—It shall be the duty of the President to preside over all meetings—but he shall not, by virtue of his office, put on any *unnecessary airs*.

6th—It shall be the duty of the Secretary to keep a true and impartial record of the proceedings of the Association, and make correct reports of the speeches of any distinguished members except they should be guilty of using profane expressions, in which cases he may substitute blanks—thus, d—n i—t for "damn it."

7th—It shall be the duty of the Treasurer to take charge of the funds; but as the poverty of our members renders it highly improbable that there will be any, he shall, in lieu thereof, keep possession of the *archives*, and shall at each meeting procure a barrel of Lager from the Maikefer Brewery, and disburse the same among the members of this Association, at the same time requesting the proprietors of the aforesaid brewery to *charge it* to our *little institution*.

8th—The remaining members shall constitute a Committee of the Whole, whose duty it shall be to "rustle 'round" and collect relics, fossil remains and other curiosities, to be placed in our archives.

The following officers were then unanimously elected for the term of one year from this date: U. Stick-in-the-mud, President; R. E. Redd, Treasurer; Suggs, of Suggsville, Secretary.

On motion, the Secretary was instructed to prepare a list of the mementoes of the present and past generation which, in his opinion, may be worth preserving, and present the same for the consideration of our next meeting.

On motion, That the President, Treasurer and Secretary shall return their *sincere thanks* to this association for the distinguished honor conferred upon them.—Adopted.

On motion that the proceedings of this association be published in the *Mariposa Gazette*, and that an order be drawn on Johnny Fremont and tendered in payment of the expenses of publication, providing the Editor shall treat all hands.

On motion, adjourned to meet *on the next occasion*.

U. STICK-IN-THE-MUD, Prest.
Suggs, of Suggsville, Sec'y.
LAGERVILLE, June 24th, A. D. 1857.

CATTLE.—Large droves of cattle pass daily through the city of San Jose bound for the north. They appear in fine condition. On Friday last, says the San Jose *Telegraph*, the largest drove of cattle we have ever seen at San Jose rested upon Washington square guarded by a number of Mexicans—that large square, embracing about thirty acres, seemed covered with cattle—there must have been thousands of them. We are informed that they were brought from south of San Diego.

NEW DRESS.—The San Francisco *Golden Era* came to us this week in a new dress. Evidence of prosperity.

Hewlett & Collins' Agricultural Warehouse—Stockton.

This old pioneer warehouse is now so widely known in San Joaquin county that we need hardly name them; yet, as our Journal is so widely circulated in that section, we feel it a duty to show our readers, and all who patornize this house, that they can always be supplied to an indefinite amount with goods in almost every line of heavey merchandise. We were somewhat surprised at the extent of business transacted by this house, but being kindly furnished with items, in order to show the extent of the agriculture of the county, we collected the following:—Messrs, H. & C. have sold the past year 300 plows, 50 harrows, 25 reapers, 15 threshers, 12 mowers, and other implements in proportion, some 1000 pounds vegetable seed, and seed grain almost beyond computation. We were pleased to note one important fact relative to *subsoil plowing*; in 1855 they sold *one* subsoil plow, in 1856 *ten*, this season, thus far, *fifteen*, showing a great advance in the most important system of plowing. They have also sold many side-hill plows.

Messrs. H. & C. are large importers of hay and straw-cutters, and machinery of all kinds, cordage, bale rope, blocks and tackle for ferrys and mining purposes, cement &c. This house also supplies, by a contract, the Steam Navigation Company with all their wood. This they receive from their country trade. They have a coal yard also, and large warehouses filled with produce of all kinds.

Messrs. Hewlett & Collins have been in trade for over six years, and by their strict attention to business, their known integrity and uprightness, have won an enviable name and position, and now can command the heaviest trade in their line of any house in that section of country. It is only necessary for us to refer our readers to our advertising columns, to show the important branches of trade in which they are engaged, and to say to our patrons that they will find it for their interest to call on Messrs. H. & C. when they visit Stockton.—*Cal. Farmer.*

The Baltimore *Sun* mentions a curiosity in the steamboat line which arrived at that port on Thursday, from Philadelphia, en route for Washington. The boat is a propeller of one and a half horse power, thirty-five feet long and six feet beam, and draws but two feet of water. The greatest curiosity about her is the engine, built on an entirely new paln, most compact in its form, and working with the regularity of clock-work. It will run with 10 pounds of steam, but has been run with 100 pounds, though worked usually with 40 pounds. The whole affair was built for a gentleman of Washington, a nephew of President Buchanan. She crossed Chesapeak bay during a strong southeaster. She burns wood, and can carry but a small amount of fuel, and consequently has to find a harbor frequently in order to obtain fuel. Her name is the Atherton.

TUOLUMNE COURIER.—We have received the first number of a weekly paper bearing the above title, published in Tuolumne county, edited by Duchow & Urmy.—The *Courier* is neutral in politics—neatly printed, and appears to be edited with ability.

SPECIAL NOTICES.

Notice.—We wish to make a collection of Quartz Specimens from all the different veins worthy of notice in this county, and persons owning such veins can have proper notices of their location, extension and other particulars connected therewith, by sending specimens to this Office, where each one will be properly labelled and its receipt be acknowledged in the "GAZETTE." Also, at the time of the State Fair, at Stockton, we intend to send the collection there for exhibition if practicable; after which, valuable specimens will be returned to contributors, if desired, upon their paying costs of carriage.

☞ DR. L. J. CZAPKAY.—We would direct the especial attention of Invalids to the perusal of Dr. L. J. Czapkay's advertisement; to be found in another column of this paper, to place the services of a learned and experienced Physician within their reach. So much ill has been inflicted on the human family from the pernicious and ignorant practices of empirics, that it seems as if we were fulfilling a boundea duty to make known where judicious relief can be obtained. To those unfortunate enough to suffer from the effects of sexual or private diseases, or their ill-treatment, we cheerfully commend Dr. L. J. Czapkay as a man of rare scientific and medical acquirements—possessing all the requirements, from long experience and acknowledged skill, for the successful practice of his profession. Having made sexual complaints his especial study, like the celebrated Ricord, of Paris, he is enabled to guarantee a speedy and permanent cure in all cases of private or chronic disease, whether the effect of contagion, self abuse, or loss of virility, and in order that patients at a distance may avail themselves of his advice, free consultation by letter is open to them. The knowledge we have of the numerous cures he has effected, some of which were of long standing, leads us to place much faith in Dr. C.'s efficacy, and commend him to the confidence of those in ill-health. may 13 3m

STOCKTON CITY MILLS.

Main St., West end—Established 1850.

THE undersigned, confident from their long experience in the Milling business, of their ability to manufacture the best description of FLOUR, would invite the attention of parties wishing to purchase, to the established reputation their brand has acquired in the Southern Mines, and wherever introduced, for its purity and superior quality.

They would take this occasion to inform their friends and the public, that having added to the premises, a **Fire proof Brick Store-House**, 40x80 feet, capable of storing 600 tons grain—improved and perfected the machinery of the Mills, their increased conveniences enable them to confidently guarantee every sack of Flour branded "STOCKTON CITY MILLS."

To Merchants and Farmers, they would add, that they continue to pay particular attention to grinding all kinds of grain. In conclusion, they would respectfully refer all those unacquainted with the Mills, to the principal Merchants of Stockton and the Southern Mines. SPERRY & CO.

DR. L. J. CZAPKAY'S

GRAND MEDICAL & SURGICAL INSTITUTE.

SACRAMENTO STREET, BELOW MONTGOMERY,

Opposite Pacific Mail Steamship Company's Office, San Francisco.

Established for the Permanent Cure of all Private and Chronic Diseases, and the suppression of quackery.

Dr. L. J. CZAPKAY, late in the Hungarian Revolutionary War, Chief Physician to the 20th Regiment of Honveds, Chief Surgeon to the Military Hospital of Pesth, Hungary, and late Lecturer on diseases of Urinary Organs and Diseases of Women and Children has opened his institute for the cure of all forms of private diseases, such as syphilis, gonorrhœa, nocturnal emissions, and all the consequences of self-abuse. In the first stages of syphilitic or genetical diseases, he guarantees a cure in a few days, without inconvenience to the patient or hindrance to his business. When a patient, by neglect or improper treatment, has developed the symptoms of secondary syphilis, such as bubces, or painful swellings of the groins, or ulcers in the throat or nose, which if not checked, destroy the soft parts and cause the bones to mortify, separate and come away, leaving the sufferer heidous to behold; or when splotches and pimples break out upon the skin, or when he has painful swellings upon the bones, or when his constitution is injured so as to predispose to consumption or constitutional disease, the Doctor guarantees a cure or asks no compensation.

In rheumatism, chronic or acute, in dysentery or diarrhœa, he has safe and effectual remedies. For the treatment of the consequences of self-abuse, such as nocturnal emissions, nervousness, timidity, headache, pains in the back and limbs, with general weakness, loss of appetite, loss of memory, injury to the sight, restlessness, confusion of ideas, dislike for society, and a feeling of weariness of life, with the nervous system so exciteable that slight noises shock or startle the patient, making his existence miserable. For the above maladies the Doctor will guarantee a cure or ask no compensation. He can be consulted free of charge, and invites all to call, as it will cost them nothing, and may be much to their advantage.

A Tribute to Merited Worth.

☞ A TESTIMONIAL RICHLY MERITED.—The ingratitude of man to his fellow man is so often met with in life, that testimonials, prompted by the finer feelings of the heart, are oasis in the life of those who sacrifice their best days in philanthropic devotion to the alleviation of the ills of frail mortality. Empiricism floods the columns of our press with fraudulent and fictitious letters; singing peans to the worth of their own egotistical charlatanism. Below we append a letter from a worthy man, who, a brief period since, seemed destined to "shuffle off this mortal coil," who looked forward to his dissolution with that pleasure which only those weighed down by the heavy hand of disease can. Contrary to hope, the ability of a skilful physician has restored him to his former health. Relieved from his terrible situation, and impelled by gratitude, he makes known his case and remedial agent, and his statement is authenticated by a Notary Public. The demands of society imperiously command its publicity; and it is given more to warn the unwary than to sound the praises of a physician of whom scores of like cases can be cited:

CERTIFICATE.

The undersigned, desirous of acquainting those who may be unfortunate enough to be similarly afflicted, where a permanent relief of their sufferings may be obtained, feels it his duty to thus publicly express his most sincere gratitude to Dr. L. J. Czapkay for the permanent recovery of his health. Borne down by the distressing symptoms incident to the vicious practice of uncontrollable passion in youth; depressed in body and mind; unable to perform even the most trifling duty imposed upon the daily avocations of life, I sought the advice of many physicians, who at first regarded my disease of trifling importance—but alas! after a few weeks, and in several instances months, of their treatment, I found to my unutterable horror, that instead of relief, the symptoms became more alarming in their torture; and being told by one that my disease being principally confined to the brain, medicines would be of little consequence, I despaired of ever regaining my health, strength and energy, and as a last resort and with but a faint hope, called upon Dr. Czapkay, who after examining my case, prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by this result, I resolved to place myself immediately under his care, and by a strict obedience to all his directions and advice, my head became clear, my ideas collected; the constant pain in my back and groins; the weakness of my limbs; the nervous reaction of my whole body on the slightest alarm or excitement; the misanthropy and evil forebodings; the self-distrust and want of confidence in others, the incapability to study, and want of resolution; the frightful, exciting, and at times pleasurable dreams at night, followed by involuntary discharges, have all disappeared, and in fact, in two months after having consulted the Doctor, I felt as if inspired by a new life—that life which but a short time ago I contemplated to end by my own hand.

With a view to guard the unfortunate from falling into the snares of incompetent quacks, I deem it my duty to offer this testimony to the merit and skill of Dr. Czapkay, and recommend him to all who may stand in need of medical advice, being assured, by my own experience, that under his care a radical and permanent cure will be effected. B. F HILLMORE.

State of California, County of San Francisco. Subscribed and sworn before me, this 17th day of April, 1856. (Signed) JOHN MIDDLETON, [L. S.]
Notary Public.

A CARD.—Prompted by an honest desire of my heart, I wish to lay before the public, a case which deserves a high commendation, not only as an act of scientific skill, but that of humanity also. About two years ago, I suddenly and from some cause unknown to me, was seized with a fit of epilepsy, which, owing to my inability to meet the expense consequent upon a thorough medical treatment, and the failures which I met with on attempting it, soon became such (as I was then led to believe) as to defy the skill of a physician. I was frequently, while in pursuit of my calling, thrown down to the ground without the slightest warning, and although insensible to the agonies, I yet despised the miseries of my life, and soon learned to look upon those who would render me assistance or shelter me from danger as enemies who sought to prolong the misery of my existence. While in this state, and having previous to my affliction, tasted the sweets of life, I once more was induced to attempt seeking aid of a physician, and by recommendation, called upon Dr. J. J. Czapkay. I told him my circumstances, and my inability to reward him for all his services, regardless of which, however, he at once undertook the case, and with the blessing of God I was once more restored to perfect health. Unable to reward him for the boon which I enjoy at present, and yet conscious of my indebtedness, I consider it due to myself and to all afflicted, to make the case public, in order that those in need of medical advice may find a physician in whom every confidence can be placed.

[L. S.] MEYER YABLONSKY.

State of California, County of San Francisco.—Subscriged and sworn before me, this 1st day of August, 1856. GILBERT A. GRANT,
[L. S.] Notary Public.

Greatest Discovery of the Age.

GREAT BLESSING TO MANKIND!—Innocent but potent! Dr. L. J. Czapkay's Prophilacticum, (self-disinfecting agent,) a sure preventive against gonorrheal and syphilitic diseases, and an unsurpassed remedy for venerial, scrofulous, gangrenous and cancerous ulcers, fœtid discharges from the vagina, uterus and urethra, and all cutaneous eruptions and diseases. As innoculation is a preventive against small-pox, so is Dr. L. J. Czapkay's Prophilacticum a preventive against syphilitic and gonorrheal diseases. Although harmless in itself, it possesses the power of chemically destroying the syphilitic virus, and thereby saving thousands from being infected by the most loathsome of all diseases. Let no young man who appreciates health be without Dr. Czapkay's Prophilacticum. It is in very convenient packages, and will be found convenient to use, being used as a soap. Price $5. For sale at Dr. Czapkay's Private Medical and Surgical Institute, Sacramento Street, below Montgomery, opposite Pacific Mail Steamship Co.'s Office, San Francisco.

All orders must be addressed to L. J. Czapkay, M. D., San Francisco, California.

Spermatorrhœa.

OR local weakness, nervous debility, low spirits, lassitude, weakness of the limbs or back, indisposition and incapability for labor and study, dullness of apprehension, loss of memory, aversion to society, love of solitude, timidity, self-distrust, dizziness, headache, involuntary discharges, pains in the side, affections of the eyes, pimples on the face sexual and other infirmities in man, are cured without fail by the justly celebrated physician and surgeon, L. J. Czapkay. His method of curing diseases is new, (unknown to others,) and hence the great success. All consultations (by letter or otherwise) free. Address L. J. Czapkay, M. D., San Francisco, California.

☞ Dr. L. J. CZAPKAY'S Medical and Surgical Institute is on Sacramento street, below Montgomery, opposite Pacific Mail Steamship Company's Office, San Francisco, California. The Doctor offers free consultation, and asks no remuneration unless he effects a cure. may13-3m
